

Campagnolo[®]

CYCLING APPAREL

1

SPRING SUMMER 2008

2

It's always a perfect day.

For those who believe that a "nice day" is simply a "nice day" sun shine, a clear blue sky and the horizon way in the distance. For those who are convinced that hot is too hot and cold is just too cold. This collection is not for you.

For those who want to challenge the fury of the elements in total safety and discover both the pleasure of performance and the privilege of comfort. For those in search of breathtaking emotions who know how to enjoy the quiet during the storm.

For those with heart, muscles and passion to spare.

The four seasons will be neither too hot nor too cold.

Campagnolo Cycling Apparel Collection.

Make yourself comfortable in the eye of the storm.

Through storm and
blazing heat, let
the weather do its
worst. Take up the
challenge.
Style is the
privilege
of the few.
It's passion.

There's something
magic in the air.
It may be the sun,
it may be the wind.
It is certainly you.

Mile after mile,
the endless rise will
become sweeping
descent.
You're on
your way.

Beauty is a
fighting spirit.

TECNO COOL

Cutting-edge technology and **up-to-date style** have been developed by Campagnolo Cycling Apparel for cyclists who demand the ultimate sportswear solution.

Waterproof:
Integral protection against the rain, with heat-taped seams and zips

Water-resistant:
Ideal protection against short showers

Windproof:
Protection against the wind

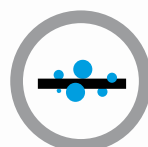

Breathable:
Perfect air circulation for a cool dry body

Hydrophobic:
Exceptional moisture control, thanks to more effective expulsion of moisture

Moisture-absorbent:
High absorption of moisture, for skin that is always dry and maximum comfort whatever the season

UV protection:
Shield against ultra-violet rays, for a body temperature that is always optimum

Antibacterial:
Prevention of bacteria caused by moisture

Odour control:
Prevention of bad odours caused by moisture and sweat

AIRPROPAD™

The natural evolution of the air-cushion, AirProPad™ is the patented new technology **exclusive** to Campagnolo Cycling Apparel that ensures maximum levels of comfort and protection, whatever the situation.

Concave ergonomic shape

Lightness

Active air circulation

Greater shock absorption

patent pending

Campy
bike
.com

AirProPad™ is made up of 3 seamless layers, with front protection and curved side wings, meaning it fits perfectly into trousers.

FOR COMPETITIONS RACING

AirProPad™ makes the bike easier to control, even during the most intense stages of a race.

This pad offers perfect shock absorption thanks to its special shape with two cushions to the rear and centrally positioned air structure.

FOR LONG TRIPS LONG DISTANCE

AirProPad™ enables a constant aerodynamic position for better results.

This pad offers maximum comfort thanks to its longer central strips that follow the body shape along the saddle and increase ergonomic qualities and adherence.

This combines with the rear cushioning to ensure top-level performance and comfort.

FOR DAILY USE TRAINING

AirProPad™ allows you to experiment everything a racing bike is capable of.

This pad has been designed to combine performance and comfort, thanks to two shock-absorbing cushions to the rear and central padding for increased comfort levels, whatever the situation.

FOR WOMEN LADY

AirProPad™ has been specifically designed for the female body and combines technicality and comfort for racing or daily training. Its anatomic shape and the qualities of the cushions to the rear ensure top performance and perfect adherence to the saddle.

TEXTRAN™

This is the result of innovative technological research, developed exclusively by Campagnolo Cycling Apparel for optimum wind and waterproofing. Textran™ is synonym of high levels of breathability and maximum comfort.

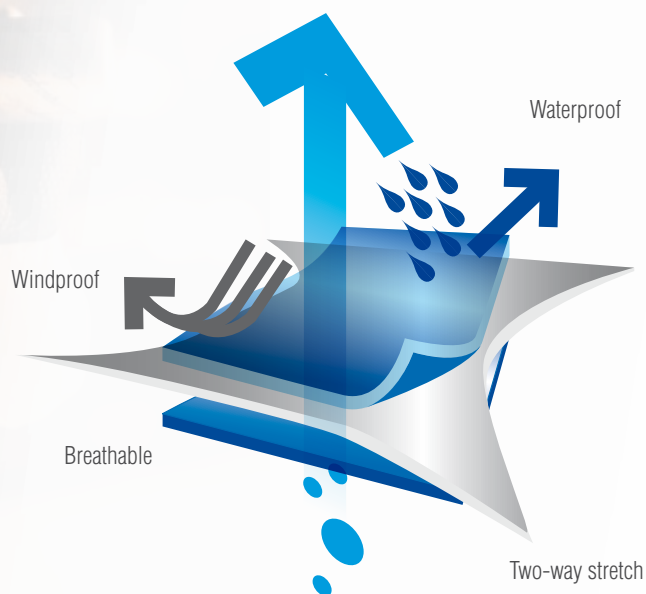

TEXTRAN™ LIGHT:

Its lightweight structure offers the same protection and adaptability to body shape but for medium temperatures.

TEXTRAN™ THERMO:

Its heavier structure acts as a shield against the harshest of weather conditions.

Textran™ Light is studied for summer articles.
Textran™ Thermo guarantees protection and comfort during the winter.
